2020 Hickory Winter Code Seminar Event

Due to the Covid-19 pandemic the Association delayed the last of our winter code seminars until August 24th-27th, 2020. The education and site selection committee has been working hard trying to pin down a location and facility to host this event. We were informed some time back that the previous location may not reopen so the site selection and education committee have been looking at alternate arrangements. We will be providing this training event both on site while observing all safety protocols and streaming online.

Currently the number of individuals that can be gather together is unknown and hopefully will change once we get into mid-August. The location selected has multiple large rooms so that groups can be split up and sessions, breaks, lunch etc... can be staggered to limit contacts as needed. For us to determine your specific needs if you were registered for the seminar please take a moment to click on the survey link below and tell us how you plan to attend. Information concerning the hotel accommodations are also listed on this survey and the attached site information.

Thank you for your patience and as we strive to meet the education needs of our members during this difficult period. A special thanks to the site selection and education committee who have worked so hard to bring you this event. Our best wishes to you and your Department and hope to see you in Hickory.

Sincerely,

Jeff Griffin/President
North Carolina Building Inspector’s Association
